For Probate Clerk.
JOHN C. PECK,
For County Assessor.
B. L. JOHNSON,
For Superintendent of Schools.
V. R. KENNEY,
For County Surveyor.

Roswell is playing in great luck this year.

The Republican convention meets tomorrow.

Roswell is already feeling the effect of the approval of the Hondo.

The Record will get out special editions for the Republican national convention and for the Democratic convention.

Everybody who could read bought a Record Saturday. All wanted to know of the Hondo. The newsboys reaped a rich harvest.

Deming has a curiosity. A man was appointed postmaster there the other day and declined the job, and now the President will have to make another selection. Who says there is nothing new in the world. Solomon will have to be revised.

Do you wish to advertise the town? Then send to your friend in the east a copy of the Weekly Record containing Dr. Steel's descriptive letter, and a copy of the Daily of Saturday containing the news of the government approval of the Hondo reservoir.

The Record is just about as Simon pure Democratic as any paper can be, but in its news columns it knows no politics. The Republican convention will be reported by The Record in the same careful and exhaustive manner as will be the Democratic convention which occurs next month. So in the report of all local matters The Record is proud of the fact that in its news columns it knows no politics, religion, clique or clan. When it comes to the news The Record is the people's paper.

RICHARDSON FOR DELEGATE.

The New Mexican hands out the following compliment for our fellow townsman, the Hon. G. A. Richardson. And the New Mexican is right, far from being a weak candidate Mr. Richardson would soon let Delegate Rodey know that he had a race on his hands for his life.

"The name of G. A. Richardson of Roswell, Chaves county, has been

prominently brought out for the Democratic nomination for delegate. It must be admitted that the Democrats of New Mexico might go a great deal farther and do a great deal worse Mr. Richardson would not prove a weak man in the contest."

The New Mexico delegates to the Chicago convention must not forget that a vast majority of the Republicans of the Territory and fully five sixths of the people are anxious to see a single statehood plank for New Mexico and Arizona in the platform to be adopted by that convention.—Santa Fe New Mexican.

The New Mexico delegates to the Chicago convention must not forget that a vast majority of the Republicans of this Territory are Republicans, and fully five sixths of them are opposed to having their delegates in the national convention make a vaudeville show of themselves by attacking the settled policy of the Republican party of the nation.—Albuquerque Journal.

THOSE POOR DELEGATES.

How hard it is going to be for the Republican delegates who represent New Mexico at the Republican convention this week to obey home instructions. Verily they are between the devil and the deep sea, though it is just a little hard to tell which is the evil one, and which is the salty deep. The New Mexican, the official Republican organ of the Territory, tells the delegates to fight in the committee and if beaten here to fight on the floor of the convention for a single statehood plank. The Albuquerque Journal, the leading paper of the party, tells the delegates that to follow this advice would be to make monkeys of themselves, and for them not to attack the settled policy of the Republican party of the nation. So here you are. Poor delegates, poor divided Republican party of New Mexico.

LUCKY ROSWELL.

Roswell is playing in great luck this year. Aside from its growing natural advantages to be made the center of a judicial district, and to be given a reservoir, the only one to be built in New Mexico and a signal service station soon to be established, all this coming within a few weeks, is certainly a matter of congratulation and proof certain that with towns as well as with individuals it is better to be born lucky than rich. For luck will bring the riches, and is bringing them fast for the Pearl of the Pecos. In this reservoir matter our friends across the mountains should rejoice with us. Instead of complaining because the Rio Grande country cannot have a reservoir for some time, they should be glad that New Mexico is favored with one reservoir, and look with pleasure and interest on the building of the Hondo reservoir, for on the success of this reservoir depends all further work in New Mexico under the government Reclamation Act. In place of lamenting that no other reservoir is to be built in New Mexico in the immediate future, let them rejoice in the building of the Hondo reservoir. Here is the entering wedge, here the successful experiment will be tried, which in coming years will result in the building of many reservoirs all over this Territory.

DISAPPOINTED.

The people of Albuquerque and those along the Rio Grande Valley are much disappointed as the result of the talk of Chief Engineer Newell, before the Commercial Club of Albuquerque the other night. Mr. Newell told them that there was no prospect of a reservoir being built by the government in the Rio Grande Valley for some time to come. He told them that the government would probably assist in pumping operations on a large scale, but was not yet ready to build a reservoir. Under the great reclamation act which means so much to the arid southwest, the government wishes to be absolutely sure of its ground before beginning any enterprise. The history of reservoirs built under private ownership has been one of failure. The government

is determined that every reservoir it puts in now shall fulfill the expectations of the builders. For this reason it will be most conservative in deciding on new enterprises. Engineer Newell told the people of Albuquerque that the Hondo reservoir would probably be the only reservoir put in by the government in New Mexico for some time. On the Hondo the government is sure of its ground. On the Rio Grande, there are many difficulties in the way which will prevent the building of any reservoir there for some time.
